

CARDIBETTER CAPSULE

There are many risk factors associated with cardiovascular disease which include age, gender, tobacco use, alcohol use, high cholesterol, obesity, physical inactivity and unhealthy diets. These factors have a high prevalence across the world. Cardiovascular disease is one of the leading causes of death worldwide especially with high significance in some developing countries that still face the scourges of poor nutrition and infectious disease. Cardibetter is a popular TCM formulated from Salvia Miltiorrhiza, Panax Notoginseng, Radix Angelicae Sinensis and Borneol for the treatment of cardiovascular diseases.
